TEAMS M-15

Wireless intercom communication system, for work groups up to 15 people.

Intercoms.

TEAMS M-15

Teams M-15 is a wireless communication system. It is a noise-cancelling headset that dynamically connects a team of 15 people through Mesh technology.

The external noise-cancelling function and an ergonomic design make it an ideal solution for communicating between work teams in very noisy and harsh environments.

KEY POINTS

Advanced technology that reduces impulse noises and allows amplification of the voice;

Hands-free communication;

Total **compatibility** with walkie talkie via cable (2-pin Kenwood cable and 2-pin Motorola cable) and with smartphone via dedicated app;

Contemporaneity of communication between several teams that can speak at the same time.

Intercoms.

TEAMS M-15

Type of business:

- Building sites
- Noisy environments (factory)
- Motorcycle/car racing teams
- Woodcutters and gardening companies

TEAMS M-15

TECHNICAL FEATURES

Technology: Mesh

Full-Duplex Communication
Technology

Compatibility

Can be used with wired walkie talkie
radio (optional cable)

Frequency 2400 - 2483.5 MHz

Max output power 0.04875 W

Multi-language voice commands to
activate the various functions

Autonomy: 16 hours

Teams M-15 does not require any base
station, but can operate autonomously
anywhere without the use of other
devices.

Built-in PTT for hands-free
communication

Midland provides an innovative wireless mesh
solution that aims to change the way teams on the
pitch interact. Up to 8 groups of up to 15 members
each can be created.

This solution was developed following extensive
research and with the help of experts in the field of
communications technologies.

Dynamic Mesh Communication

A unique dynamic intercom system with auto-
reconnect capability that connects up to 15 team
members. This technology allows for always-on,
hands-free and full-duplex communication, designed
to operate in the harshest environments.

Hands-free Operation

Activation of voice commands allows hands-free
communication, without pressing buttons. It is
sufficient to give a voice command to obtain the
desired function.

In fact, it is possible to answer the phone and
activate the FM radio, without using your hands.

TEAMS M-15

APP

It is possible to set the intercom via the **MIDLAND TEAMS** app

It allows you to:

- 1) manage the intercom by setting groups and communication channels;
- 2) set up group chats, private chats, both as an administrator and as a user;
- 3) listen to music from your phone or select the FM radio station
- 4) make the voice call to the mobile phone (last number called and access to the phone book)

It is possible to download the app both from the Apple store and from Google Play.
