FUNCTION

**MIDLAND**[®]

MIDLAND was founded in 1959 in a small factory in Kansas City. Today it is the world leader in the radiocommunication and consumer electronic.

The Headquarters is in Reggio Emilia, Italy.

Since 2006, Midland has been specializing in motorbike communication products.

I T A L I A N D E S I G N

THE PERFECT AUDIO
FOR THE DEVELOPMENT OF SOUND
WITH NO LIMITS AND NO COMPROMISES.

We established internal rules to push our limits even further.
Our engineers are committed on a daily basis in a challenging development process.
The Wind Tunnel is the laboratory where they check the sound, the quality of devices
and the overall performance.

*INTERCOM COMMUNICATION
BECOMES MESH.*

Midland Mesh Conference™ is the technology that allows a perfect intercom communication in full duplex up to 10 people at the same time. Each user can exit from the conversation and join it again whenever he desires, through a dynamic and automatic connection with the complete group.

BT MESH

THE INTERCOM WITH MESH TECHNOLOGY.

Communication up to 10 people
in Conference mode.

Repeating function widens distance
up to 5 km in a 10 people group.
BT MESH can be paired with any
Midland intercom, via Bluetooth.

Compatible with 1 different brand model
through the **Universal Intercom** function.

INTERCOM COMMUNICATION

BT PRO S LINE

Midland introduces the most advanced technology for noise suppression in the new BT PRO S LINE.

The **DNK™** (Digital Noise Killer) function reduces the wind and the engine noise up to 80%.

All the line is equipped with the **Universal Intercom** function to talk to any brand

(2 other brands intercoms with BTX2 PRO S, while 1 with BTX1 PRO S),

the automatic volume regulation (AGC-Automatic Gain Control) and 23 hours battery life.

BT intercoms are waterproof certified (IPX6) and they can connect to 2 devices at the same time, like smartphone, GPS or **Dashboard systems** (TFT, etc...)

BTX2 PRO S

Dual Bluetooth chipset.

Conference up to 1,2 Km - 8 people (4 motorbikes)

BTX1 PRO S

Conference 3 people.

Up to 800 m

NO LIMITS.

MORE POWER TO YOUR INTERCOM.

Install the **BTT Button** on the handlebar of your motorbike.

Download the free of charge **BTTalk App**  .

Communicate with your group of riders **without limits of users and distance**, checking in real time your friends position.

Compatible system with all smartphones, it can be used with intercoms of any brand.

INTERCOM COMMUNICATION

BT MINI

PREMIUM ESSENTIAL INTERCOM.

1 button operation, voice alert, power audio stereo sound, connection to mobile phone/GPS, waterproof, 8-hours battery life.
